## PROFESSIONAL EXPERIENCE

### Texas A&M University

*Graduate Assistant*, College Station, TX

October 2014 – Present

- Planned quarterly projects, identified bottlenecks and designed appropriate SDLC processes to ease workflow.
- Developed web application by quickly learning technical skills in emerging technology skills.
- Fixed incidents/help requests in web applications to support 18 clients/departments at university.

### Accenture

*Software Engineer*, Hyderabad, India

October 2012 – June 2014

- Led offshore team and implemented pilot ERP solution. Gained client's confidence to finalize 5 year contract.
- Managed three resources, fixed system defects in ERP solution for legal client and achieved 100% test targets.
- Channelized communication between onshore and offshore by leading daily triage meetings.
- Trained 80 mid-level engineers to increase the headcount of Center Of Excellence team by 100%.
- Implemented an integrated ERP, CRM and Retail POS solution. Fixed go-live issues and stabilized product.
- Developed month cyclic reports and analyzed data using Excel pivot tables and charts.

*Technology Consultant*, London, England

October 2011 – September 2012

- Automated 'pending tasks notifications' and 'budgets upload process' and improved productivity by 800%.
- Developed financial transactional SSRS reports by gathering requirements from client. Documented processes.
- Developed custom scripts to load and extract data in ERP application from legacy and e-commerce applications.

*Associate Software Engineer*, Hyderabad, India

December 2009 – September 2011

- Automated dunning and collection letters and purchase and sales orders processes by programming in X++.
- Liaised with Microsoft and Tectura and resolved critical showstopper defect.
- Supported production technology applications for UK client and achieved customer satisfaction of 7/7

## PROJECTS

### Healthcare Data Warehouse

January 2015 - May 2015

- Designed data warehouse and analyzed billing performance of healthcare providers using SSAS and SSIS.

### Advanced Database Management

September 2014 - December 2014

- Analyzed current business for real estate firm and prepared the system design documents using Visio.
- Modelled database as Fowlers Repository and build an application using MySQL, Java and NoSQL (Cassandra).
